## DYNO GRAPH

- ◀ True plug and play piggy back system - PnP
- ◀ Retains all factory accessories and sensors
- ◀ Fully tuned custom map for maximum horsepower and torque
- ◀ Ability to be program for additional refinements using Windows based software (*not included*).
- ◀ Ability to return to stock anytime

◀ **STOCK HP: 160 HP**  
**NEW HP: 300 HP@8PSI**  
**140HP GAIN!**

\*CRANKSHAFT HP WITH 94 OCTAINE FUEL  
\*HP MAY VARY BASED ON DIFFERENCE IN OCTANE

KITS COME COMPLETE WITH ALL HARDWARE READY TO BOLT ON

WITH PATENTED  
**CERAMIC BALL BEARING**  
TECHNOLOGY

## INSTALLATION

- ◀ 6-8 hours install time
- ◀ No modifications to chassis required
- ◀ Quick spool up (*minimum turbo lag*) due to BB technology & correctly matched turbo

## WHAT IS THE UNICHIP?

The Unichip is a computer that electronically resides between your car's ECU and engine or "piggybacking" (*Computer in Series*). The Unichip computer is a solid-state computer measuring only the size of a MP3 player, yet is made of multiple high-speed processors to fine tune engine performance. All SCION kits come with a Turbonetics programmed Unichip.

## Flux Power Display

- ◀ Dynamic power display software for Pocket PCs
- ◀ Displays vital engine data, 0-60 times, horsepower and torque levels
- ◀ Upload new engine performance maps from Unichip web site
- ◀ Uses Bluetooth™ wireless technology

\*POCKET PC SOLD SEPARATELY
